It is regretted that during the processing of the above paper, errors were introduced in Table 3. The superscripts a and b were interchanged in error. The correct version of Table 3 is shown below.

Table 3  
Results of analysis of variance

| Source of variation | <i>F</i> value for $R_a$ | <i>F</i> value for thickness | <i>F</i> value for hardness |
|---------------------|--------------------------|------------------------------|-----------------------------|
| A ( $V_p$ )         |                          | 11.54 <sup>b</sup>           | 5.22                        |
| B ( $r$ )           |                          | 3.12                         | 9.11 <sup>b</sup>           |
| C ( $V_D$ )         | 2.94                     | 2.31                         | 6.27 <sup>b</sup>           |
| D ( $f$ )           | 3.67                     | 27.79 <sup>a</sup>           | 5.36                        |
| E ( $I$ )           | 2.97                     | 3.97                         | 5.80                        |
| F ( $P$ )           | 8.49 <sup>a</sup>        | 18.70 <sup>a</sup>           | 3.89                        |

<sup>a</sup>Represents high significance.

<sup>b</sup>Means significance.
